

The Wildlife Trusts is an organisation made up of 46 local Wildlife Trusts including our own Devon Wildlife Trust. Their website is full of interesting information for both adults and children. Here is just a sample of the activities that you can find for your kids.

Wildlife Watch

You will find this and many other ideas in the Wildlife Watch section, which features masses of things for your kids to make including, bird boxes, binoculars, bug hotels, bird feeders and much more.

There are also colouring sheets to download and hundreds of facts about wildlife that will inspire them.
